

Martini Glassware

Martini Glassware What do you need for a great martini party? You need sexy martini glasses. Little plastic cups just don't work, your guest will feel less important therefore more inclined to do more damage. Martini glasses come in all material: Glass, Metal, Plastic. The shape of a martini glass is standard; it has a long skinny stem with a v shape profile and a large opening to drink from. But you can choose from many types of stems and colors. Designer glassware offers simple yet elegant martini glasses and wine glasses. Stems with blown glass flowers, or plastic mold of olives. Martini glass made of plastic are usually best for parties, they won't break, and they give the drinker the feeling of holding a hoity toity drink. Martini cups made of metal are great for camping. Glass martini cups are the best, in my opinion. What you need for making a martini: Cocktail and Martini Shaker with matching ice bucket, Dry vermouth, A spray can of olive juice, Martini Olives.
